*18th February 2011*

Dear Customers,

We are currently experiencing problems with the supply of *Baby Spinach Leaves*, *Baby Rocket* and *Wild Rocket* due to the recent floods in Victoria.

High temperatures and humidity have depleted supplies of most Leafy lines out of this major growing region.

We anticipate this problem will continue for the next few weeks.

Please be aware all efforts will be made to fill orders, however we cannot guarantee supply.

Should you require any more information, please do not hesitate to contact your Account Manager.
